### **1:40,5 gallery**

As part of my artistic practice, i runned 1:40.5 Gallery since September 2020. As the name suggests, this gallery is a model on scale 1:40.5 of Fred&Ferry Gallery. It was also shown in the office space there. I built the mini-gallery and, after an open call, selected eight artists for a solo exhibition. These artists were given carte blanche: the invitation and challenge was precisely to rethink exhibition practices, averse to production or financial feasibility - anything was possible in the world of the model.
